## OPEN ARMS LIMITED/EDITION

Montana Colors joins forces with Open Arms to launch an MTN Limited Edition in solidarity with the Barcelona based NGO.

Montana Colors was founded on the principle that it should support projects that fight for social justice whenever possible. This idea is now manifested in our line of MTN Limited Editions, as we saw last year with a design dedicated to the late writer Julione which generated funds for a children's cancer ward in his native Seville.

Open Arms is a non-governmental non-profit organization dedicating to safeguarding the lives of people who try to reach Europe by sea; fleeing war conflicts, persecution or poverty. Through surveillance and boat rescue in the central Mediterranean, its solidarity work extends to other areas like advising and training people who migrate, developing alternatives to irregular migration and social awareness through reporting injustices.

Montana Colors presents a limited edition aerosol, featuring an image by photographer Santiago Palacios, which pays tribute to the work of the Open Arms organization, as well as all the people in vulnerable situations who risk their lives to find a better future. That is why the profit that Montana Colors receives from each aerosol sold will be donated entirely to Open Arms, who will invest it in fuel for their rescue boats.
